

# NOVATED LEASING

## What is novated leasing?

A novated lease allows you to purchase a new, used, or existing car through a salary packaging arrangement. It's a three-way agreement between you, your employer and the finance company that lets you pay for the finance on the car along with its running costs, in convenient payments straight from your pay.

## Features of a novated lease

### TAX SAVINGS

A portion of your payments are taken from pre-tax salary, resulting in a reduction of income tax that you would otherwise pay

### GST SAVINGS

Save GST on eligible vehicle purchases and on the ongoing running costs throughout the life of your lease

### EASY BUDGETING

All your running expenses are included with the finance on your vehicle. One easy payment straight from your pay!

A novated lease can be one of the most cost-effective and convenient ways to buy and run a car, no matter what you earn, the price of the car or how many kilometres you travel.
