

# SALARY PACKAGING AND CENTRELINK WHAT YOU NEED TO KNOW

Many employees enjoy the benefits of salary packaging while receiving Centrelink payments. This fact sheet explains what you need to do to manage your Centrelink entitlements and make sure you are maximising your salary packaging savings.

## What do you need to know?

Salary packaging should not impact your entitlement to the following payments as long as you provide Centrelink with the correct income information:

- Family Tax Benefit
- Parenting Payments
- Dad & Partner Payments
- Child Care Subsidy
- Commonwealth Seniors Health Cards

## What do you need to do?

After signing up for salary packaging we recommend that you contact Centrelink to advise that:

1. You have commenced salary packaging for an employer that is a charity, not-for profit, public hospital or ambulance service
2. You expect to receive a reportable fringe benefits amount ("RFBA") in your year-end Income Statement (Payment Summary)
3. Your employer is an "exempt employer under section 57A of the FBT Act"

## How can SalaryPackagingPLUS help?

We can provide you with an estimate of your reportable fringe benefits amount for the current year (or previous years) for the purposes of informing Centrelink.
